TECHNICAL OFFICIAL ACTIVITY LOG

NAME

The Technical Activity Log is your activity statement during the past triathlon season. This Log should contain activity including sanctioned events attended as a technical official, accreditation courses attended, assisted or presented, and ITU events in Australia or overseas where you were a member of the Technical Team. Attending an event as a Technical Official should be one line of activity only. Do not include individual activities (example: bike check-in etc.) Ensure this log is presented to the Chairperson of your State / Territory Technical Committee before 30 June each year so that your ongoing accreditation can be determined.
